THE DUCHY 21

# DUCHY MOTOR LAUNCHES

---

## Duchy 21

Do you own a waterside home and enjoy relaxing on the water with family and friends? Do you seek the polished styling and relaxed handling of a custom build without the high-end price tag? Then look no further than the Duchy 21.

Classically designed, handcrafted, semi-production vessels, Duchy Motor Launches are created by skilled craftsmen who combine the traditions of the shipwright with modern luxury, technology and performance.

Built from low-maintenance composites, you customise the interior to create something that is distinctly yours; tailored to meet your precise requirements. From custom-made stainless steel fittings, the choice of timber for the interior joinery and upholstery fabric to custom crockery and powering options, we ensure that your Duchy is exactly what you want it to be – a classic yacht for a modern world that chimes perfectly with your way of life. You also join a discerning group of Duchy owners and become part of the Cockwells family.

# COCKWELLS

## DUCHY 21

---

With ample cockpit space for eight guests, this stylish open day boat provides the perfect platform for cruising and relaxing with family and friends. What's more, we can customise it to your exact specifications and include any number of optional extras.

Swimming is made easier with a ladder that aligns with the cockpit's central steps. Waterproof cushions create a forward double sunbed so that you can dry off in style. The sunbed converts into a spacious overnight double berth or a fully-enclosed cockpit when skies turn grey with ingenious sprayhoods that disappear when not in use. Sip something chilled from the fridge whilst listening to your favourite tunes on the Fusion marine stereo. Prepare a gourmet picnic using the sink and hob, and dine al fresco from two folding oak tables - or take it ashore in your picnic hamper. The possibilities of life aboard a Duchy 21 that is uniquely yours are endless.

Powered by either diesel engine or electric motor, the highly versatile Duchy 21 is a capable sea-going boat that can be towed and launched almost anywhere – at the coast, or on the river, fjord or lake.
