## CAREERS

### CNC Operator

Cockwells enjoy an enviable reputation as a company in the forefront of designing and building the highest quality boats, motor launches and tenders. The Company cleverly integrates traditional boatbuilding skills with innovative engineering and modern techniques to build custom and semi-production vessels of the highest quality using both wood and composite materials. Following a major investment and redevelopment of their established base at Mylor Creek near Falmouth, Cockwells is looking forward to exciting times ahead, creating new opportunities and investing in the future of the Company and its workforce.

Cockwells are looking for a CNC operator to join their growing team. We are open to applicants who have previous experience in CNC operations or are new to the industry and are looking for an apprenticeship. The products produced on the CNC machine are mainly high-end bespoke components for motor launches and superyacht tenders therefore we are looking for someone with a keen eye for detail and the ability to see potential issues before they arise.

The ideal candidate will have:

- Knowledge of Rhino 3D and AlphaCAM CAD software (if you are an experienced applicant)
- Knowledge of boatbuilding material properties
- Ability to work well within a team
- Good organisational skills on the shop floor and while using the company PC system
- Ability to follow a plan even in a high-pressure environment

#### LOCATION

The place of work is normally Mylor Creek Boat Yard, Mylor Bridge, Falmouth TR11 5NS. Please note that Cockwells are presently operating from a temporary location at Vospers, Ponsharden, Falmouth TR11 2SD until September 2018, or otherwise as may be dictated by the company.

#### SALARY

A competitive and negotiable salary is offered dependent on experience.
