

COCKWELLS

CAREERS

Composites Manager

Cockwells enjoy an enviable reputation as a company in the forefront of designing and building the highest quality boats, motor launches and tenders. The Company cleverly integrates traditional boatbuilding skills with innovative engineering and modern techniques to build custom and semi-production vessels of the highest quality using both wood and composite materials. Following a major investment and redevelopment of their established base at Mylor Creek near Falmouth, Cockwells is looking forward to exciting times ahead, creating new opportunities and investing in the future of the Company and its workforce.

We are a growing company, currently going through a period of change due to site re-development and process enhancement, so someone with a flexible and pragmatic mindset will be a prerequisite for the role!

A Composites Manager is sought to manage the laminating element of our boat builds, ensuring that all quality checks are carried out. Due to recent success securing further orders, we are now seeking an additional person to join our project management team. You will need good knowledge of Laminating trades & ideally will come from a previous management position. Experience in the Marine industry will be a significant advantage, but is not essential.

The Composites Manager will be accountable for:

- Planning laminating jobs: create the plan, identify design drawings needed, list materials needed, document quality checks required
- Manage Production of laminating to acceptable quality criteria
- Provide regular progress updates to Management. Manage the plan and report risks & issues
- Ensure that all Quality checks have been actioned and evidenced
- Ensure that all product data sheets and records are in place
- Manage the laminating team. People management, H&S enforcement within the team.

- Liaise with Boat build PMs to align plan dependencies
- Ensure that all Materials required are on site when needed. Identify materials required then, plan purchase in a timely way in conjunction with purchasing team

Skills required for the role will be:

- Must have Laminating Knowledge & Experience
- Previous management experience (desirable, not essential)
- Desirable to have used Microsoft Project software Previously, or a willingness to learn
- Desirable to have experience in status reporting, risks & issues escalation, milestone reporting etc.
- Desirable to have experience in Leading and Managing people, with the confidence to give direction to a team of laminators and drive delivery to deadlines
- Must be from a manufacturing/production background & comfortable in those environments
- Must be experienced in planning and setting up jobs from start, creating a plan & briefing teams
- Must be PC literate in all Office applications Word, Excel, PowerPoint as standard
- Previous experience in Quality Management oversight or process management will be an advantage

Please view our website www.cockwells.co.uk for an insight into the vessels we build and refit.
