

# COCKWELLS

## CAREERS

### Design Draughtsperson

#### **NATURE OF ROLE**

Cockwells enjoy an enviable reputation as a company in the forefront of designing and building the highest quality boats, motor launches and tenders. The Company cleverly integrates traditional boatbuilding skills with innovative engineering and modern techniques to build custom and semi-production vessels of the highest quality. Following a major investment and redevelopment of their established base and boatyard at Mylor Creek near Falmouth and maintaining additional facilities at Ponsharden, Cockwells is looking forward to exciting times ahead, creating new opportunities and investing in the future of the Company and its workforce.

The Cockwells design team are looking for an efficient Design Draughtsperson to produce construction drawings for the yard team.

An essential skill for this role is to be able to use Rhino3D and Solidworks software and be confident in producing a wide range of 2D drawings and 3D models for a variety of components required in the build of a Cockwells launch.

A knowledge of interior joinery construction would be beneficial to the role.

Build drawings will need to be of the quality to go out onto the shop floor or be sent to subcontractors to work from. This could include 3D models being sent away for 3D printing or CNC cutting. The candidate must be happy to work with others and to an existing drawing system.

Previous experience in the marine industry sought after but not essential.

Salary will be negotiable depending on experience.

#### **LOCATION**

You will be based mainly at our main offices at Mylor Creek Boat Yard, Mylor Bridge TR11 5NS

#### **HOW TO APPLY**

Please submit a covering letter with your c.v. and portfolio to [info@cockwells.co.uk](mailto:info@cockwells.co.uk)
