

TENDER DOES IT

Cockwells Modern & Classic Boatbuilding is based in Mylor Creek Boatyard near Falmouth in Cornwall, at the westerly edge of the UK. They build bespoke superyacht tenders, motor launches and sailing yachts in any material to your precise requirements. The Mylor Creek Boatyard is also fully equipped to offer refits, restorations and engineering services for local yachts, and superyacht tenders from all over the world.

The Titian Tender is not just another beautiful bespoke boat from Cockwells, but a modern masterpiece of artisan craftsmanship and technical ingenuity; the sublime synthesis of speed and style. Combining durable composites with the resilience of yellow cedar and the sleekness of teak to create the ultimate in luxury for ten guests, the Titian Tender is based on a concept by Redman Whiteley Dixon. With an interior designed by Cullum Bespoke, who bring expertise in luxe car design to the mix, this spectacular craft – with its copper-infused caulking, intricate carpentry and silk panels adorned with original fine art – has been created by Cockwells' in-house design team with the Mediterranean in mind.

Take only a moment of cruising at 30 knots to locate your favourite anchorage and enjoy a blissful afternoon in sumptuous style. Deploy the self-launching anchor and the automated Bimini to create your very own shaded island. With easy access to the bathing platform, immerse yourself in the azure blue waters and head for the hot water deck shower as soon as you are back on board. Relax in the spacious sunbathing area with an ice-cold drink from the fridge or join friends and family in the cockpit for a delicious lunch

prepared in the galley. The Titian Tender exudes comfort and convenience at every turn.

From the stainless steel fittings that have been specifically cast and the hugely manoeuvrable twin-jet drive to the contemporary chic of the Corian and copper galley, the Titian Tender makes a statement.

Cockwells' 9.5m Limousine was built as a tender to an 88m superyacht and demonstrates the company's seemingly limitless flexibility when it comes to delivering exclusive custom-builds. With a spacious saloon for up to 12 guests, her rich tweed and warm wood interior creates an environment that radiates luxury and serenity even at her top speed of more than 30 knots. Powered by a single Yanmar engine, she is also equipped with a Fusion marine stereo, heating, air conditioning and a state-of-the-art EmpirBus system with custom touch screen, enabling all on-board electrical systems to be pre-set and easily controlled. The price of the Titian Tender is from £750k plus VAT and the 9.5m Limousine is from £800k plus VAT.
