

COCKWELLS

7M SPORTS AND LIMOUSINE TENDERS

7M TENDERS

LENGTH OVERALL 7m / 22' 11"

LENGTH WATERLINE 6.36m / 20' 10"

BEAM (MAX) 2.5m / 8' 2"

DESIGN DRAFT 0.43m / 1' 5"

CONSTRUCTION Carbon Composites

DISPLACEMENT 1.8 Tonnes (sports tender)

MAX SPEED 36 Knots

ENGINE Yanmar 6BY3 - 260

SEATING 8 + Crew

ADDITIONAL FEATURES

EmpirBus control system

Raymarine navigation system

Stowaway roof and helm consoles

COCKWELLS

7M SPORTS AND LIMOUSINE TENDERS

Due to the restricted space in the mothership's tender garage, the Cockwells team came up with the inventive idea of designing the limousine tender with a detachable roof built from ultra-lightweight materials. The custom-made sports boat was similarly designed around the space available to be both low in profile and easy to manoeuvre.

The judicious use of high tech materials such as titanium and carbon combined with 260 horsepower Yanmar engines result in exemplary performance, comfort and style for these bespoke tenders.

Even with crew and fuel, the weight of the sports tender is less than 1.8 tonnes and the limousine tender is just over 2 tonnes. The limousine tender is the perfect craft for cruising and relaxing with its maximum speed of 36 knots whilst the sports boat's top speed of 37 knots makes it the ideal choice for water sports or fast transits.
