

Refit Manager

Would you like to work with an award-winning boatbuilding company based in waterside offices near Falmouth, Cornwall - the perfect destination for sailors, surfers and beach lovers?

Cockwells Modern and Classic Boatbuilding Ltd is a growing company that is globally respected in the marine industry, building luxury motor launches, sailing yachts and superyacht tenders. We are now looking for an experienced Refit Manager.

Job description

As our Refit Manager, you will work with the existing team to manage the successful delivery of refit projects within the agreed schedule and budgets and to the high-quality standard that Cockwells customers expect.

Our refit work covers everything from servicing the winter layups at our Mylor Creek Boatyard, to significant all trades refits on our domestic or overseas fleet and special restoration projects. The Refit Manager will report directly to the After Sales Director. The role also includes the following duties:

- Working with the After Sales Director to quantify tasks on the agreed work lists
- Create project plans for all trades to carry out the job within the agreed timeframe and the capacity of the Cockwells facilities
- Estimating the time and materials required to carry out each task
- Identifying risks and completing tasks within time and budget constraints
- Weekly project reviews with the After Sales Director for client reports and project updates.
- Ensure that all Materials required are on-site when needed. Identify materials required then, plan purchase in a timely way in conjunction with purchasing team
- Ensure a robust quality control process is in place and adhered to for all finished works
- Daily workflow management of all trades on the project including any subcontractors

Essential skills

- Marine experience and a good understanding of the construction and maintenance of leisure or commercial vessels in the 6m to 20m size range
- Can lead by example on projects as well as be a motivational member of the team
- A project management qualification such as Prince II or equivalent
- Previous Project Management experience
- Experience in planning and setting up projects, with the confidence to deal with multiple projects at the same time
