HARDY MOTOR YACHTS

Following our acquisition of Hardy Marine’s assets in 2020, we continue to offer their original, well-loved and respected designs.

But we are also proud to have redefined these vessels to create the definitive family cruising environment with separate spaces and comfortable cabins for adults and children; spacious saloons, outdoor living areas, enhanced safety features and walkaround decks.

With a Hardy, you can live the life of your dreams – sipping ice-cold champagne and dining al fresco beneath the stars; sunbathing on the flybridge, cooling down in the comfort of your air-conditioned cabin or launching your paddleboard in azure waters.

You can experience the best staycation that the British Isles has to offer; indulge your spirit of adventure and head out to the Mediterranean via the French canals or sail the high seas with confidence anywhere in the world in a Hardy.

COCKWELLS

HARDY 50 DS

A sea-going explorer yacht for spirited sailing in all weathers.

Using the same well-proven hull as the original Hardy 50, this striking Category A sea-going explorer yacht is a smaller version of the traditional Hardy 65DS. Combining the practicality and performance of a rugged, go anywhere cruiser with contemporary finishes, fittings and internal styling, this design incorporates the very latest technology, not to mention all the comforts of a home from home.

The Hardy 50DS delivers a double-berthed en-suite owner's stateroom; two twin-berthed guest cabins with shared heads/shower, and a vast deck saloon and cockpit area for reclining and unwinding in luxury. Its large protected cockpit area is perfect for outside dining and the huge lazarette beneath is designed for stowing all those toys. Alternatively, there is the option of a spacious flybridge for those who love the feeling of open-air boating or simply relaxing and enjoying the sea view. The large bathing platform is perfect for swimming and can store a 3.8m RIB too.
