COCKWELLS

10.5M TITIAN TENDER

Copper-infused caulking. Silk panels imbued with original fine art for the interior. The absolute artistry of bespoke carpentry. The exquisite synthesis of speed and style. The Titian Tender is not just another beautiful bespoke boat from Cockwells Modern & Classic Boatbuilding but a modern masterpiece of artisan craftsmanship and technical ingenuity.

Created very much with the Mediterranean in mind, it will take only a moment of cruising at 30 knots to locate your favourite anchorage and enjoy a blissful afternoon in sumptuous style. Deploy the self-launching anchor and the automated Bimini to create your very own shaded island. With easy access to the bathing platform, immerse yourself in the azure blue waters and head for the hot water deck shower as soon as you are back on board. Relax in the spacious sunbathing area with an ice-cold drink from the fridge or join friends and family in the cockpit for a delicious lunch prepared in the galley. The Titian Tender exudes comfort and convenience at every turn, and makes a statement.
